Letter: Greetings,

Test local food for glyphosate

# Comments

Name	Location	Date	Comment
Brian Mckillican	Moose Creek, Canada	2016-10-31	Im tired of getting poisoned every day, and this is slowly altering all of nature and our evolution!
Michael Kovacs	Pemberton, Canada	2016-10-31	I want to know what is in my food.
Shawn Lukaschuk	Winnipeg, Canada	2016-10-31	I want to be able to choose food which does not contain glyphosate.
Ross Phillips	White Rock, Canada	2016-10-31	We need to know what is in our food
Robin Thomason	Arlington, TX	2016-10-31	I love humanity and the animals, insects of this planet.
Phyllis Creighton	Toronto, Canada	2016-10-31	Glyphosate is a probable carcinogen and Canadians have a right to know if their food is safe to eat and to be protected through Health Canada.
Julia Alvarez	Calgary, Canada	2016-10-31	Ban these terrorist corporations from having free range to our politicians and public systems approving they toxic practices!!
André Comeau	Quebec City, Canada	2016-10-31	This product is a patented antibiotic, screwing up essential parts of our microbiome and leading to multiple health problems. When Monsanto itself patented its antibiotic activity, perhaps the role of the microbiome in human health was not known. But nowadays, the lack of care about this dangerous product cannot be excused. Nobody should eat glyphosate. And alas, we all eat that poison, perhaps less if we eat organic food, but it is so omnipresent that it is very hard to avoid. Freedom of eating safe food does not exist any more. We need the testing for glyphosate residues in Canadian food.
Josette Wier	Smithers, Canada	2016-10-31	Time for lobbied governments to start protecting the public.
William Orr	Surrey, Canada	2016-10-31	Somebody is covering up important facts.
Judy Hoy	Stevensville, MT	2016-10-31	I am signing because there is an astronomically high prevalence of birth defects and health issues like liver cancer in wild and domestic birds and mammals, including humans, especially newborns. The increase in these birth defects and health issues correlate closely with the increase in use of glyphosate in Roundup since 1996. Please see the following study. <a href="http://dx.doi.org/10.4172/2375-446X.1000132" rel="nofollow">http://dx.doi.org/10.4172/2375-446X.1000132</a>  This study may be of help to biologists in Canada, who are trying to bring attention to the same birth defects on Canadian wildlife that are addressed in our study.
Subhro Ganguly	Maple Ridge, Canada	2016-10-31	I want to eat local food with no glyphosate pesticide content and for a better health.
Annie Kaps	Surrey, Canada	2016-10-31	As a grandmother, I don't want to leave a legacy of not entering a protest towards an issue which our Canadian government is not making transparent to consumers.
ken rimmer	Athelstan, Canada	2016-10-31	It is sickening that people are being fired in Canada for essentially speaking out as whistleblowers when we as Canadians have said we want them protected. Cannabis like bureaucracy and bull shit rages on to protect the elite!
Mary Taitt	Ladner, Canada	2016-10-31	The public has the right to know the results of scientific studies. Products should be labelled with details of contaminant contents. The public can then make informed choices.
Rosemary Mason	Swansea, United Kingdom	2016-10-31	People have a right to know what's in their food
Adam Van Es	Vancouver, Canada	2016-10-31	We are being poisoned....

Name	Location	Date	Comment
Gilles Fecteau	Toronto, Canada	2016-10-31	Because knowing what goes into our food should be a right.
Kenneth Young	Nanaimo, BC, Canada	2016-10-31	Tired of the top poison company being in charge of our food and its production.
Arlene Saunders	Elora, Canada	2016-10-31	I want to know if Glyphosate is in the food I am eating and the water I am drinking - because, as we have learned, it is an antibiotic -- an endocrine disrupter and a probable cause of cancer... (to say the least) - and I want to stay clear of it - forever. I don't care if it creates a marginal increase in yields - it creates a moonscape -- a barren wasteland in the fields around where I live where it is used... after harvest nothing is growing in those fields- not a weed.. nothin' /... ya gotta know that it ain't good -- get it out of our food system - now. Start more testing -- and publish results - it is our right to know.
Jack Coughlan	London, Canada	2016-10-31	I want our government to make me feel safer about the food we buy from our grocery stores in Canada .Please help us feel safer, test our food and be honest with us.
Anne Murray	Delta, Canada	2016-10-31	I'm signing because I am very concerned about the pervasive, dangerous effects this chemical has on the health of humans and the whole environment.
Benoit Lavoie	Cantley, Canada	2016-10-31	This is supposed to be an open government. Scientists were supposed to be able to speak. It is now hiding information related to a biocide that may very well pose serious risks to Canadians' health.
Hugo De Luca	Toronto, Canada	2016-10-31	We need to know.
Melanie Axford	Burnaby, Canada	2016-10-31	I'm signing because glyphosate needs to stop being used to grow our food. It builds up and is a poison. The idea that we use any poison in growing our food is ridiculous. The idea that we hope that the long lasting results are not harming us and our children is ludicrous. At least, start the testing.  Regards,  Melanie Axford
Karl Zielke	Slave Lake, Canada	2016-10-31	It's needed !!
beth paron	harrow, Canada	2016-10-31	i care about what we eat and our health
Joyce Friesen	Ottawa, Canada	2016-10-31	I have the right to know what is in and on my food, so I can make a choice to eat it or not.
B.A. Bentley	Kingston, Canada	2016-10-31	The latest stats indicate that since the 1970 era up to today we have lost about 70% of our wildlife population... truly alarming and what is happening to our people?
Ron Packota	Coldstream, BC, Canada	2016-10-31	We need proof that any biocide used on our food chain is safe and must be a non carcinogen. Thanks Tony
Yketa Werenka	Calgary, Canada	2016-10-31	My childrens health and future is at risk from crap put into there food.
Pat Jeflyn	Windsor, Canada	2016-10-31	We need to know so we can decide the future of our food supply. Let's get the facts in an honest, independently verified study.
Tracey Ferguson	Winnipeg, Canada	2016-10-31	We need testing for glyphosate! this is a dangerous chemical that is used far too widely and excessively. It is time to put restrictions on the use of this chemical or ban it completely.
Jackie Maguire	Athabasca, Canada	2016-10-31	I'm concerned with the health of our children
Diane Murray Murray	lower sackville NS, Canada	2016-10-31	want my food tested Health Canada do your job or get out

Name	Location	Date	Comment
Ronald Wall	Duncan, Canada	2016-10-31	For many years I have been reading published scientific papers on the non-target effects of glyphosate and its formulated commercial products. As a result, I think that its use must be curtailed as there is far too much in the environment.
Joan Schindel	Meadow Lake, Canada	2016-10-31	This is extremely important. We all deserve to know what is in our food. There have been reports of glyphosate in urine, breast milk and ground water. It has to be running off fields into streams and rivers. So our wildlife and all the animals we use for meat are ingesting poison either through contaminated water or food sprayed with glyphosate. It's time to put a stop to it and put health before profit. So let's find out if and how much glyphosate is in our food.
Pam Bryan	Edmonton AB, Canada	2016-10-31	I am very concerned about glycofates and my health and believe Canada is doing a poor job regulating and monitoring - and then we all pay for the subsequently required healthcare
Beatrice Macpherson	Surrey, Canada	2016-10-31	Am concerned with toxic food and the health of the environment
Edie Tisch	Toronto, Canada	2016-10-31	It's been long enough that we, the consumers, are waiting for the government to act about this serious matter.
Catherine Gibson	Regina, Canada	2016-10-31	I am signing because we must know if and how much glyphosate residue is in the produce we buy both locally and from afar.
peter popoff	Castlegar, Canada	2016-10-31	THE HEALTH OF OUR COUNTRY AND THE WORLD ARE AT STAKE. WE ARE NOT MONSANTO PAWNS .
Rebecca Tin Tun	Langley, Canada	2016-10-31	Glyphosate is poisoning our planet and all the persons and animals on it.
jamie langlois	Toronto, Canada	2016-10-31	we are being killed off by the government for profit.
Devanie Conrad	Edmonton, Canada	2016-11-01	I don't want to ingest a product that crosses my blood brain barrier and creates negative changes in my system.
Ron Findlay	Inwood, Canada	2016-11-01	I believe that Glyphosate is unhealthy and even deadly get rid of it.
Ken Bell	Shrewsbury, Canada	2016-11-01	I don't want to ingest Glyphosate.
Shyamal Mitra	India	2016-11-01	It is good activity
M Pavlis	Nakusp, Canada	2016-11-01	Many other countries have banned the use of this dangerous chemical and Canada should as well.
Lee Reed	Saint Almo, Canada	2016-11-01	I do not support the use of glyphosate to kill plant life indiscriminately, nor the modification of our foods (GMO) to depend on it.
Joanne Martin	Chatham, Canada	2016-11-01	Canadians deserve to know what we are eating, and we want and deserve healthy food. Glyphosate is poisoning us and causing preventable disease. It must be banned.
Jarrood Wood	Kitchener, Canada	2016-11-01	I care
Lennon Werenka	Athabasca, Canada	2016-11-01	This cause matters to me
Douglas Jackart	Lakeville Corner, Canada	2016-11-01	I'm disgusted that Health Canada is as useless as tits on a bull. It hasn't done independent testing for 15 years! If they are doing anything at all now, they are being secretive about it. Get started now and do your job or suffer the consequences!
S Butlin	Woking, United Kingdom	2016-11-01	Glyphosate is a toxic poison

Name	Location	Date	Comment
Phyllis Ruthven	Delta, BC, Canada, Canada	2016-11-01	I'M signing because I believe we have the right to know what foods are contaminated with glyphosate so we can determine for ourselves how to avoid this dangerous chemical.we can no longer rely on corporations to determine safe levels. We need to be able to destinguish what levels we are being exposed to so that we can make personal decisions and not rely on corporate cover ups.
Nelson W. Eddy	Bowser, BC, Canada	2016-11-01	Did we learn nothing from Ralph Nader and Big Tobacco? Give consumers the knowledge of whether or not a food has a GMO component!
Muriel Doris	Chemainus, Canada	2016-11-01	I would like to see what sort of testing was done before this chemical was approved to be so thoroughly applied to our environment. Glyphosate and "Round-Up-Ready" seeds have contributed, I'm sure, to cheaper food (and to larger profits for certain corporations), but I'm not sure that it has contributed to improved health, either for human beings or for the environment. Time to examine our food and our assumptions, I think.
Mary Charron	Chatham, Canada	2016-11-01	I have a right to know what, and in what amounts, I am ingesting.
Frank Garnish	Nanaimo, Canada	2016-11-01	I want a environmentally stable, sustainable, and poison free future for my grandchildren
potvin lucille	Québec, Canada	2016-11-01	J'appuie cette pétition totalement parce que je pense qu'il est grand temps et impérieux de connaître de quoi il en retourne avec le glyphosate. Comme consommatrice, je suis en droit de savoir ce que révèlent ces fameux tests. Il en va de notre santé. Le glyphosate est partout, semences, alimentation, certaines plantes pour l'industrie pharmaceutique, alimentation des animaux sans oublier aussi les effets néfastes sur la faune et la flore.
Gilbert White	BURLINGTON, Canada	2016-11-01	I am concerned for my children and the health of our nation
Maureen Yost	Surrey, Canada	2016-11-01	We, the Canadian public, need to know what is in our food.
Bill Kinal	St-Lazare, Canada	2016-11-01	Maybe the Canadian government is scared, maybe they've signed non-disclosure agreements with Monsanto and are afraid of being sued. Monsanto has done this in the past, they are truly a despicable corporation throwing their money around and BUYING politicians. Our message to the Canadian government is this; don't be scared, the people of Canada are behind you and will make it easy for you to kick these bums out. If they want to sue Canada, bring it on! We don't give up.
Beverly Ireman	Sutton, Canada	2016-11-01	I need to know what I am eating. Shouldn't everyone?
Sharon Walker	Surrey, Canada	2016-11-01	I have attempted to avoid food products that contain ingredients that I understand to be contaminated with glyphosate at some point in their production. I would appreciate being informed on products that are free of glyphosate as there are perhaps some that I don't purchase because I don't know so I simply avoid many that are questionable. One example is eggs produced by chickens on a canola diet...what is the glyphosate content in those eggs? I suspect it's in them so I avoid them.
Bob Stuart	Spiritwood, SK, Canada	2016-11-01	Corporations require an external conscience for public safety.
Donald Peerenboom	Maple Ridge, Canada	2016-11-01	I want glyphosate banned worldwide. It is poison. It is not necessary.
Toby Earp	Montreal, Canada	2016-11-01	I'm concerned about the effect of food-borne glyphosphate on my family's health.

Name	Location	Date	Comment
Jocelyn Chouinard	Lunenburg, NS, Canada	2016-11-01	The entire world should join forces against the endless toxic poisons poured into our "food" system by Monsanto and other equally evil Mega Corporations i.e. Bayer, Syngenta and more. No one has the right to murder people for unbridled Mega Profits, especially when they do NOT even PAY THEIR TAXES! The situation is critical and even more so because our corrupt politicians are in their back pockets!!
Anoinette Ritacco	Sault Ste. Marie, Canada	2016-11-01	I am signing this petition to STOP the Cancer and diseases that are plaguing us with the use of Monsanto's poisons and to stop our Corrupt Government from advocating these poisons and advocating what the citizens of Canada want and believe in.
Joyce Sloat	Alma ON, Canada	2016-11-02	The health of humanity needs to be addressed...this chemical is meant to destroy . Look at the obvious perils of damaging our gut flora.
Patrice Anita	L.A., CA	2016-11-02	Because I'm sick and tired of the lies told about our food. Glyphosate is a POISON and needs to be treated as such...it is NOT a food additive.
Paul Simpson	Delta B.C., Canada	2016-11-02	It's unacceptable that we even have to request full disclosure on the ingredients/chemicals etc used at all stages of the production chain on everything we consume. This should be a basic duty of our government to ensure the health of every citizen, free of influence from the likes of Monsanto and Bayer!
cecily porter	Blind River, Canada	2016-11-02	I don't want glyphosate in my food. I want to know what I'm eating. Please ensure I have that choice.
Richard Leger	Toronto, Canada	2016-11-02	Disgusting, there are wads of evidence showing the harm this poison causes to every living being.  Time for our gutless, corrupt governments to put a stop to this crap, but they really won't have any incentive to do so until lazy, indifferent citizens get off their big arses.
m Pearson	Blind River, Canada	2016-11-02	This is effecting lives...
Aatos Lehtila	Stirling, Canada	2016-11-02	I voted Liberal because I didn't want a country run by corporations like Monsanto.
Jennifer Clark	RR#1 Priceville, Ont, Canada	2016-11-02	In a world full of pesticides and chemicals, we need to know what is in our food!
Cindy Miles	Chatham-Kent, Canada	2016-11-02	I'm signing this because I want to make informed decisions when buying my food.
Debbie Elliott	St. Catharines, Canada	2016-11-02	Chemicals are killing us to feed us. I want to know what I'm eating. I just don't have blind trust anymore.
Lyn Pople	Perth Road, Canada	2016-11-02	I have a right to know what I am eating and feeding to those I love. Our government should want us to know as well, if not then the question becomes "Why"
cara Thompson	Butler, PA	2016-11-02	Because I don't want to be eating pesticides and I especially don't want to be feeding them to my babies! We don't even the looking term effects.
Yvonne Cox	Londonderry, Nova Scotia, Canada	2016-11-02	I want clean food.
Gail Thompson	Regina, Canada	2016-11-02	I don't care for poisons in my food.
Nancy Tynski	Sydney, Canada	2016-11-02	Because we deserve clean food and have the right to good health.
Mary Stevenson	Lyons, Australia	2016-11-02	Food must be safe for us, our children and generations to come!!!
Brenton Trenholm	EDMONTON, Canada	2016-11-02	All GMO foods should be tested and labeled

Name	Location	Date	Comment
STUART PEARCE	PORT-AUX-BASQUES,NL, Canada	2016-11-02	Our health is more important than profits!!
Pam Ricottone	Bracebridge, Canada	2016-11-02	I have an autoimmune disorder
Yvon A Moreault	Dégelis, Canada	2016-11-03	<p>We have the same kind of so-called scientist on our federal pay role defending glyphosate as we had defending DDT, agent orange and so on. Shame on them and their ignorance. I worked over 40 years for DNR fighting the forest industry, their impostor from U0fM and our own HQ staff over the need to spray indiscriminately mix wood stands, while the natural reproduction process, in most cases can be achieved through proper harvesting techniques.</p> <p>How ever, this is no longer possible since the industry nor the provincial DNR do not have a clue as to the state of natural regeneration in the stands being clear cut.</p> <p>The Province of New Brunswick is blindly contributing to this mismanagement at the expense of its poor revenues and the health of it's citizens.</p> <p>Yvon A Moreault, retired regional forester, RPF (1963-1997)</p>
David van Berckel	Vancouver, Canada	2016-11-03	It's the right thing to do.
Marion DeCaro	Cobble Hill, Canada	2016-11-03	I believe glyphosates are toxic and do not want them in my foods. I do not use products with it in them and do not want to buy produce with any glyphosate at all
Jean Tremblay	Srsfield, On., Canada	2016-11-03	<p>I do care to know what is in our food.</p> <p>I want to know about the effects of glyphosate on humans and animals, and all living organisms.</p> <p>Like a medical doctor who was an opponent of pesticides and herbicides once told me, "What will kill a plant or a bug, can kill you too. Maybe not in a day or two, or a few weeks, but in the long run, it will affect you. Remember that."</p> <p>How do we know if glyphosate is safe? We can't trust the manufacturers of these products because they are in that business for the money.</p> <p>When an ad on TV advertises «Roudup ready canola», it gives me shivers, and I come to the decision that canola should not be something I should ingest. But of course, one has to check the ingredients list on food packages and to find out if canola is present.</p> <p>Agriculture is becoming a deadly enemy.</p>
Auldius Pais	Mangalore, India	2016-11-03	I am signing because Glyphosate is a serious health issue all over the world.
Vicki Nadwidny	Selkirk, Canada	2016-11-03	Glyphosate is poison. It should not be our food in ANY amount!
C Simon	Victoria, Canada	2016-11-03	<p>I want the food I purchase to be tested for glyphosate, and the results published in an easily accessible way.</p> <p>Health and Agriculture Ministries should test for and publish what insecticides, pesticides, hormones, pharmaceuticals, etc. are used in producing foods that we buy in Canada, and should publish them.</p>
natascha trautmann	Delta Bc, Canada	2016-11-03	<p>protecting my health and that of my children fed up with government not listening.</p> <p>get rid of all gmo food in canada including infant formula contaminated with gmo</p>
bernie greenspoon	riichmond hill, Canada	2016-11-03	I care about mine and my family's health and wellbeing
Danielle Bigger	Timmins, Canada	2016-11-03	We deserve transparency! If food is important to you, you need to read, sign and share this petition!!

Name	Location	Date	Comment
Kim Hunter	Vancouver, Canada	2016-11-03	#NotRoundupReady These synthetic chemical food practices ripped up my gut for 2 decades before I stumbled on the fact that organics do not hurt me. I can't be the only one who is #NotRoundupReady
Dale Sali	Kelowna, Canada	2016-11-03	We all have a right to know if our food is contaminated with any non-food substance. It's our choice on whether we want to buy it and consume it or not. NOT YOURS!
Erin Wiedmer	Montreal, Canada	2016-11-03	I don't want to eat food laced with glyphosate and I have no way of knowing what is and what isn't! I don't believe it is as innocuous as the chemical industry says.
Susan Schachinger	Flesherton, Canada	2016-11-03	We deserve to know what glyphosate is doing to our bodies. 20 years ago, they claimed it would put an end to starvation in the world. 20 years later, we are Leiden with allergies and many diseases we had no worries about before. They claimed less pesticides and herbicides would be needed, now they have to use more. Needs to stop and governed properly!
Thom Walters	Brantford, Canada	2016-11-03	The people have a right to KNOW what is in the FOOD we eat.
Steen Larsen	Delta, British Columbia, Canada	2016-11-03	I believe this is one the biggest food safety and health issues of our time.
Robert Burchill	London, Canada	2016-11-03	Farmers in our area are using glyphosate on beans and wheat and other such crops to speed up drying off of the plants to facilitate earlier harvesting , which means the plants have this product on the seeds and pods, instead of just being a systemic weed killer, by entering the root of the weeds. A very serious difference. Test results, must be independent of corporate gifts to labs, and those results must be released to the public, and included in the ingredients list of our food packages. Thank you for listening.
Carmen Clothier	Swift Current, Canada	2016-11-03	I am in opposition of poisons being in our food.
Candice Clarke	lake louise, Canada	2016-11-03	Stop poisoning us.
Christine Harper	london, Canada	2016-11-03	Canadians deserve safe food. We shouldn't have to sign a petition to achieve this. But, I realize that's what is needed, for now. I will sign as many as it takes. This is probably the most important petition out there right now. Our food should not make us sick or cause disease.
Tracy Horsman	Wolfville, Canada	2016-11-04	Glyphosate is sprayed on so many crops both GMO and as a pre harvest desiccant that it's almost impossible to avoid eating it. Stop telling us its safe without the data to show us what the real residue levels are. That means testing food. It's due diligence or negligence.
allan swain	Minden, Canada	2016-11-04	It's about time this government realized they were elected to serve the people and not their own interests and back pockets.
Kim Lavallee	Sultan, Ontario, Canada	2016-11-04	It is extremely important to the future and health of all who share this planet
Laura Tapley	Mannville, Canada	2016-11-04	Transparency in Government is critical in public trust. The fact that approval is given to any product without release of the documentation that the approval is based on, I believe is, against the rights of the people of Canada. If there is nothing to hide.. show it!! Testing should be done to ensure that the levels are acceptable to the people, or we can then choose not to purchase that product.
Garry Capling	London, Canada	2016-11-04	Previous carelessness and ignorance must be given attention, NOW!
Russell wise	Pickering, Canada	2016-11-04	i want to know
Marilyn Lowe	Truro, NS, Canada	2016-11-05	Glyphosate causes cancer and there is way too much cancer unfolding.
M Zuyderhoff	Sutton, Canada	2016-11-05	get glyphosates out of the food chain...everyone's food chain (animals included)

<b>Name</b>	<b>Location</b>	<b>Date</b>	<b>Comment</b>
Ellen Linderman	Edmonton AB, Canada	2016-11-05	It's our food and we want it clean. Our government should care enough about the people of Canada to protect us from big money. That is why we elected you
Claudine Crook	Lethbridge, Canada	2016-11-05	We must have a choice, to know what's in our food
Michelle Willetts	Lethbridge alberta T1H 6z6, Canada	2016-11-05	We need to start ensuring we are providing safe food for all. Not slowly poisoning people.
Anita Nicholas	Calgary, Canada	2016-11-05	Do want to know my food is safe and pesticide free.
